

Jennifer Webster

Traditional Herbal Remedies Training

Suite 1-4, 1075 Old Princes Hwy

Engadine NSW 2233 9548 3287

Affiliated with ICPKPA. RTO 90826

Pre-Requisite for Cert IV in Kinesiology is Touch for Health Proficiency.

The following is a table outlining the fees payable for the Cert IV in Kinesiology conducted by Jennifer Webster in affiliation with ICPKPA. The course offered at this training campus encompasses 2 nationally recognized qualifications.

The first 5 weekends of the course will cover internationally recognized Touch for Health. Once completed and proficiency is assessed the applicant will gain accreditation for this fascinating healing modality. At this campus we feel that TFH gives our students an excellent grounding in Kinesiology, which can then be built on with the Cert IV for Professional use.

Touch for Health must be completed and the conversion weekend attended, before we can commence with the other units of the Cert IV. A conversion weekend applies as there are many variables between TFH and the Cert IV that needs to be clarified. 5 new books will be handed to the students this weekend.

Student Clinic can be commenced once BKP 101 – 110 are fully completed—this is usually late October.

We will endeavor to cover the student clinic fees with a small charge that the clientele will be billed for the services provided. However, this may fall short so there may still be a fee payable. The fee needs to cover room rent and supervisor fees.

If you have studied & completed any of the home study units beforehand with a recognized RTO, and feel you deserve a credit or RPL, please hand in your qualifications and they will be assessed by the RTO for Recognition of Prior Learning. There is a fee payable for any subjects that you may be wishing to RPL.

Course fees will be adjusted accordingly if your prior qualification is recognized.
